DON'T DO IT.

Don't persist in a wholesale condemnation of trust companies, just because what seems to have been a *one* man trust company, was ruined by the fellow who managed both ends of it, as well as the middle.

Don't get mixed up on names and titles, for while they are often similar, you have only to know the men at the head as well as their methods when the strong dissimilarity will appeal to your judgment and reason.

In this issue the statement of the Real Estate Title and Trust Company, 523 Chestnut street, is submitted for your perusal in a way which tells the whole story of the company's strength and safety. Its assets are always given in the statement which it publishes from time to time, that not only the company's directors and stockholders are made familiar with them, but the general public can see and read and acquaint itself with the market value of every security named.

Let in the light! For honest companies in the hands of honest men invite investigation and never evade it.

Don't! Please do not confound the defunct Real Estate Trust Company, of Broad and Chestnut streets, with the Real Estate Title and Trust Company, at 523 Chestnut street, of which Joseph L. Caven, Esq., is President.

"THROUGH 'FRISCO'S FURNACE."

With the self-same enterprise which has always characterized the management of the Joseph Dixon Crucible Company, it has published a booklet entitled, "Through 'Frisco's Furnace," which, besides being an object lesson through its collection of original photographs, is also a way of making clear to the reader the value of steel and iron structural methods for large buildings, particularly when the proper preventative against rust and decay and even fire is used.

It will be noticed that in all the large buildings, of which photographs are shown, the Dixon Graphite paint was used to cover the iron and steel work, and in every instance, it is claimed where disintegration took place, as a natural result of the terrible shock, exposing the iron work, so as to afford a careful inspection, the Dixon Graphite paint which had been used years ago as a preservative, was as bright as though the iron and steel work of the building had been painted but a few days before the terrible calamity which destroyed San Francisco.

The pen pictures which described the fearful destruction and desolation were ingeniously written, but, however satisfying they may have been, they failed to tell the story with the same clearness and force as do the photographs presented by the Joseph Dixon Crucible Co., office and salesrooms, 1020 Arch street, Phila.

PHILADELPHIA, WED'Y, NOV. 14, 1906

ARCHITECTS NOTES.

At Washington, D. C. the Board of Trustees of the Protestant Episcopal Cathedral of St. Peter and St. Paul, has commissioned Architect Henry Vaughan, of Boston, Mass., and Architect George F. Bodley, of England, to prepare plans for the proposed cathedral, to be erected at a cost of from \$5,000,000 to \$10,000,000.

J. R. Ogden, architect, Atlantic City, N. J., is working on plans and specifications for a three-story apartment house for the M. Powdermaker estate, to be built at that place. It will be built of brick and stone. On the first floor will be stores, with ten apartments above. It will be heated by steam, wired for electricity and be equipped with up to date and modern appointments and conveniences. Will be ready for bids in about 10 days time.

When the members of the College of Physicians, raise \$100,000 more towards their new home, Andrew Carnegie will give them \$50,000. The proposed new home will cost about \$200,000 and there is already \$50,000 in the treasury. No site has yet been chosen for the building, though the Jayne property, at southeast corner of Nineteenth and Chestnut streets, has been favorably considered. Their present home is at Thirtieth and Locust street, is inadequate for its purposes and steps will be taken to raise the necessary amount as soon as possible, so as a site can be secured and work of erection of the new building started.

The Department of Public Health and Charities will advertise for bids this week, so it is reported. There will be administration building, store, public and private ward buildings, nurses home, exit building, refractory and receiving and observation ward building of the Municipal Hospital, to be built in the Thirty-third Ward. The buildings are arranged on the group plans, with open corridors forming the service connection between them. They will be constructed of red brick, with stone trimming, metal cornices, slate roof. The adminis-

tration building will be three stories high, with basement. The store building will be three stories high, with a basement and be used for taking care of the supplies. The basement will contain ice making plant. The exit or bath building will be one-story and basement high. The nurses home will be three-story and basement high, and will be equipped with modern appointments. The public ward building will be two-stories and basement high, and contain twenty bed ward on each floor. The private ward building is for patients who are able to pay and will be two-stories and basement high. The refractory will be three-stories high, with basement. The service way between the buildings will be a two-story and basement high. The receiving and observation ward will be one-story and basement high. This building will be used to receive the patients into the building. All the buildings will be modern and up to date in their appointments. Plans by W. B. Powell, city architect.

At Asbury Park, N. J., Architect Clarence Brazer is preparing plans for an addition to the Mansion House, New Brunswick, N. J. It will contain seventy rooms, and all modern improvements will be provided.

1906

The building season of 1906 from January 1st to October 31st inclusive, including the transfers of real estate in Philadelphia county for the same period.

9850 New Buildings of all kinds for which permits were granted costing \$29,996,033, exclusive of the cost of the land, against 8991 for the same months of 1905 an increase of 859 in the number of new buildings and an increase in the investment of \$3,816,305.00.

2345 Alterations and Additions (including only those costing \$300 and over) costing \$3,577,500.00, an increase of 184 and an increase in the investment of \$276,000.00.

Total expenditures for building improvements this year up to October 31st inclusive, \$33,513,533.00, an increase over the same period of 1905 of \$4,092,305.00.

21,334 Transfers of Real Estate against 17,484 for the same months of 1905, a gain of 3,850. The amount this year is \$105,856,401.22 against \$92,520,442.24 for the first ten months of 1905, an increased value of \$13,335,958.98.

Inasmuch as this journal is devoted to the imparting of information which interests those who own and control real estate, we desire to give the following official statement which may correct the

opinion of those who think that the business of insuring buildings and their contents against loss by fire, is one of unlimited profit to those whose capital is invested in that business.

If the following statement will only tend to allay the antagonisms against fire insurance companies which crop out now and then, the aim of the writer will have been reached.

The general public regard churches as exceptionally good fire risks and the opinion frequently prevails that there is little, if any, loss in such fire risks. The question, however, is specifically settled by the following:—

The following figures show the Premiums, Losses and Expenses on Churches alone in the City of Philadelphia for thirty-two years prior to 1906, viz:—

Total number of fires, 197;
Insurance involved, \$3,736,000;
Premium (on 80 cents for five years basis), \$101,000;

Loss, \$431,000;
Ratio of Loss to Premium, 225 per cent., plus 35 per cent. for Expenses—Total Loss and Expenses, 260 per cent.

When it is understood that the banner years for building in Philadelphia since its founding by Penn were 1889 with a total for its twelve months of 10,250 and 1890 with its total of 10,136; that for the first ten months of 1889 (the same months we are now considering for 1906), there were built 9201 buildings of all kinds or 649 less than during the same months this year and that in 1890 he results were 560 less than this year, up to and including October 31st last; hence it is conclusive that unless November and December prove to be in climatic influences absolutely disadvantageous for construction work, there will be at the end of the year such a record for building as will make 1906 the banner year in the history of the city, its 400 more new buildings in the last two months of this year will equal the production of 1889 in its entirety.

This number or more are not only possible, but highly probable, as there were erected in November and December of 1889, 1049 new buildings of all kinds.

Now then, with this era of unprecedented building, the question of absorption becomes imperative, or unless it is fairly considered, our chart becomes valueless. Nothing better in this respect can possibly be submitted than our record of transfers, and the reader is at full liberty to discount the value of these by deducting what he regards as "builders transfers" just as he pleases. For our own part, however, we never believed that such transfers merited half the importance that some people were disposed to give them. The results of 1889 again becomes valuable for comparison, as we are going to show that absorption in that year with its enormous records cut no such figure as it has this year.

As it is impossible for most of our readers to supply their own tables we shall quote from our record for 1889. In that year there were in the first ten months 13,355 transfers, while for the same period of this year they number 21,334 or 7979 more, and the amount in 1889 was for ten months \$66,410,746.62—while this year it is \$105,856,401.22 or \$39,445,654.60 more. Consequently it is necessary for those of our readers who desire to get off a heap of Jack Bunzby's wisdom to fully comprehend the value of the above figures. The fact is, there has never been such absorption,

The Following is a Table of Conveyances by Months.

ARCHITECTS NOTES.

M. I. Kast, architect, Harrisburg, Pa., has prepared plans for the erection of the Citizens Bank of that city covering the banking room and the store on the first floor with two apartments on the second.

It is reported that the Philadelphia Lodge of Eagles will expend \$20,000 in enlarging its club house on Spring Garden street below Broad. An additional property on the east will be purchased to accommodate the required space.

Architects Owens & Sisco, Baltimore, Maryland, have been selected to prepare plans for a high school, to be erected at Savannah, Georgia. The structure will be three stories high, 90x182 feet, and the cost will be \$100,000.

At Jersey City, the Jersey City Amusement Company, will erect a three-story fireproof theatre, 100x125 feet. The plans will be prepared by Architect William H. McElfatrick, 1402 Broadway, New York City. No contracts have been awarded.

K. W. Peuckert, architect, 310 Chestnut street, has completed plans and specifications and will invite estimates soon for a bottling house to be built at Fairhill street & Susquehanna avenue. It will be one story high, of brick and contain all up to date improvements.

Arnold Moses, architect, 136 South Fourth street, is working on plans and specifications for a handsome new residence to be built at Merchantville, N. J. It will be two and a half stories high, built of stone with porches, hard wood on the interior, and every modern convenience.

Work will shortly begin on the erection of a \$75,000 church at Fifty-first and Spruce streets, adjoining the chapel of the Church of the Reconciliation. The Building will provide a handsome church home for the old Church of the Mediator, at Nineteenth and Lombard streets.

It is reported that the Manufacturers' Club is considering the proposition of securing the old Bellevue property and erecting a magnificent club house on the combined site of the old hotel and their present home. At a recent meeting plans for a new building were discussed and it is thought they will be adopted at the December meeting.

The first floor of 1006 Arch street will be occupied by the Peoples' Trust Company, extensive interior alterations and improvements will be made, vaults installed, partitions built. A local architect is now engaged on plans and specifications to govern this work. It is the intention of the company to occupy their new quarters by January 1st of next year.

H. L. Reinhold, Jr., and S. H. Bailey Mercer, associate architects, have completed

plans and specifications and have sent same to the owner, who is taking bids for a fire House to be built at Mechanicsburg, Pa., for the Washington Fire Company of that place. It will be two stories high 28x90 feet and be built of brick and stone, and contain all modern improvements.

John H. Windrim, architect, Commonwealth Building, has been commissioned to prepare plans for a fifteen story office building for the Girard estate on the site of the Frederick Brown Building, at the northeast corner of Fifth and Chestnut streets. It will be built of brick, stone and steel, and is estimated to cost about \$1,000,000. Work on the new building will not be started until Spring.

Bunting and Shrigley, architects, 603 Chestnut street, are working on plans and specifications for a new residence to be built at Seminole avenue and Rex street, Chestnut Hill. It will be three stories high, built of stone and frame, with porch fronts. The interior will be finished in hard wood, tile bath, wired for electricity and contain all modern conveniences. Bids will be invited in a week or ten days.

The plans will be submitted for the approval of the Building Committee on November 23d. Work on the building will begin early in the spring.

Sauers & Hahn, architects and engineers, 1114 Chestnut street, have completed plans and specifications for a factory to be built at Marshall and George streets, Norristown, Pa. It will be built of brick and reinforced concrete, and will be two stories and basement high, 45x78 feet, and contain all modern improvements. The following are a list of builders who have submitted bids: F. E. Wallace, J. Sims, Wilson B. Ketcham & Sons and Lynch Brothers, builders.

The Borough Council of Spring Lake, N. J., will receive Sealed Proposals for the erection of two bathing establishments, including pavilions, bath houses, laundry, steam plant, plumbing, etc. Bids will be received until Monday, December 3d, 1906. The Council reserves the right to receive or reject any or all bids. Plans and specifications can be seen at Council Chamber, Spring Lake, or at the offices of W. C. & A. F. Cottrell, architects, Appleby Building, Asbury Park, N. J.

G. W. & W. D. Hewitt, architects, Bullitt

The following have been invited to bid: Metzger & Wells, Schnell & Co., of this city; J. D. Lippincott, of Burlington, N. J.; J. Norcross, of Burlington, N. J.; and J. S. Rogers & Co., of Stanwick, N. J.

Charles J. Brooke, architect, 14 South Broad street, has been commissioned to prepare plans for a twin residence to be built at Merchantville, N. J. It will be two and a half stories high, built of brick and frame, and will have porches and all conveniences and appointments. He has also prepared plans and specifications for two additional wings to the Hotel Ottens at Wildwood, N. J. They will be five stories and basement high, both built of frame and brick, and will treble the capacity of this hotel. The new wings will conform to the present building in architecture and have all modern improvements. Work on these structures will be done by day work and by local builders.

BUILDING and REAL ESTATE NOTES

William Steele Sons and Co., builders, 1600 Arch street, have started work on two three-story brick warehouses, each 17x68 feet, to be built at 202 and 204 S. Second street, for J. M. Morris and C. H. Peacock, to cost \$5,400 and \$4,900.

Cramp and Co., builders, Commonwealth Building, have plans posted for a eleven story building for John Wanamaker, to be built at 1224-26 Market street. It will be constructed of brick, stone and steel, 45x100 feet and will be fireproof.

Smith, Hardican and Co., builders, Perry Building, have been awarded the contract for interior alterations to No. 1305 Market street for Warner and Company, according to the plans and specifications of Sauer and Hahn, architects, and engineers, 1114 Chestnut street.

President A. Merritt Taylor, of the Philadelphia and West Chester Traction Company, has purchased one hundred acres of land from Arthur Garrett, of Upper Darby, who represents the Garrett estate. It is expected that the land will be used by the company in their extensive improvements.

The 85 acres sold by Barnes and Lofland last Tuesday at Frankford on the Oxford Road, known as "Oakland" for \$3,000 per acre, will be used as a country estate by the purchasers Messrs. Burk Brothers, Fourth and Arch street after the three years lease of the Frankford Country Club expires.

The Board of Public Education, Wilmington, Delaware, will receive bids until November 26th, 1906, for steam or hot water heating of Public School No. 7, the Board's property 708 Delaware avenue and the Board room to East Sixth street, according to plans by Architect E. L. Rice, Jr., Wilmington, Delaware.

Bids have been submitted for a new factory at Edgystone, Pa., for the Pennsylvania Iron Works, to be built at that place. It will be one story high, 66x240 feet, and be built of frame and iron. The following are bidding: P. J. Hurley, Thomas M.

Seeds, Jr., H. C. Rea, H. E. Grau and Co., Armstrong & Latta, of this city, and Nolan Bros., of Chester, Pa.

Bids have been filed by H. E. Grau & Co., Smith, Hardican Co., Henderson Co., Appleton and Burrell, and Louderback and Co., builders, with J. A. Reletter, architect, Broad Street Station, for alterations and additions to stores and residences at 1206-08 South street for J. A. Fayer. Plans provide for a rear addition and general interior remodeling. Lynch Brothers, builders, Lippincott Building, Fifteenth and Filbert streets, have submitted the lowest bid and will probably be awarded the contract for a new school to be built at Asterville Ford below Monument Roads. It will be three stories high, with basement and be built of brick and stone and contain all modern improvements. Plans by J. Horace Cook, architect, for the Board of Education.

Robt. They will be two stories high, built of brick with porches, and contain six rooms and bath. The size of the lot on which this operation is to be built will be 168x100 feet.

The trustees of the Roman Catholic High School bought from James J. Delaney No. 1343 Vine street, the property measuring 17.10 x80 feet, for a nominal consideration. On the site of this and a number of adjoining dwellings, a \$50,000 addition to the school will be built, as they are cramped for space at the present time. It is expected that work on the new addition will start as soon as possible.

S. S. Wilmer, 3211 Comly street, has taken out a permit for the erection of two buildings for the Quaker City Rubber Works, to be built at a cost of \$5,000. One building is at the northwest corner of Comly street and Delaware avenue, and will be of brick, two stories high, 33x88 feet, and the other at the northeast corner of Comly and Wilmer streets, 57x68 feet and will be one story high, built of brick. They will contain all up to date improvements.

B. Ketcham and Sons, builders, 1025 Brown street, have been awarded the contract to build the new factory for H. H. Ship and Co., at Randolph street and Columbia avenue. It will be five stories high, 60x80 feet, and be constructed of reinforced concrete, brick and contain all the up to date appointments of a building of its kind. It is estimated to cost \$45,000. The plans and specifications were prepared by Clyde S. Adams, architect, 1233 Arch street. Work will start at once.

Lynch Brothers have been awarded the contract to build the six story and basement factory at 1516-18-20 Callowhill street for Schrack and Sherwood. It will be built of brick, stone and measure 42x100 feet and contain all modern appointments and will cost \$35,000. They also have been awarded the contract to build the new synagogue at Thir-

ty-second and Montgomery avenue for the Beth Israel Congregation. It will be one story high, built of stone and contain the lecture hall, class rooms, auditorium etc., and be provided with all modern appointments and will cost \$50,000. Plans and specifications by Sauer and Hahn, architects and engineers, 1114 Chestnut street.

C. E. Schermerhorn and Watson K. Phillips, associate architects, 430 Walnut Street, have completed plans and specifications for a three-story stone stable to be erected on Depot street near Reading station at Chestnut Hill, Philadelphia, for Mr. Morris Williams. The stable will be 40x70 feet. The first floor will be used as a carriage room, with a runway to the second floor which will be arranged to accommodate 32 horses, harness rooms, etc. The third floor will be used as a hay and straw loft. The building will be of stone covered with stucco, with iron columns and girders. The roof will be of slag. The carriage room will have a plank caulked floor with waterproofing material between. It will have Plumbing stable fixtures, hardware, etc., included. The following contractors have been invited to estimate: Burd P. Evans and Company, A. L. Pretz & Son, D. W. Sneyry, Wm. J. PHILADELPHIA, WED'Y, NOV. 28, 1906

It is now broadly stated that the Baldwin Locomotive plant in its entirety is to be turned over to the Wabash R. R. Company for terminal purposes.

While this is little more than street talk at present, it is, however, evident that the Baldwin Company is pushing work on its new plant at Eddystone. It has already, it is said, nearly 2000 machinists and foundrymen at work there now and that next Spring the company will have at least 5000 skilled mechanics at work.

A serious difficulty already presents itself through the scarcity of dwellings. It is claimed that thousands of tenements would find ready occupants at good rents in Chester even now, and, in fact, one enthusiastic gentleman who seems well posted says that a thousand desirable small dwellings would find quick purchasers at once, so great is the demand.

ARCHITECTS NOTES

The handsome home of Samuel Humphries at Overbrook, Pa., was recently destroyed by fire. As soon as the insurance has been adjusted it will be rebuilt.

At Asbury Park, N. J., the plans of Architect Clarence Brazier for a church, have been accepted by Trinity Episcopal congregation. The structure will cost about \$15,000.

Airy, Phila. It will be two stories high, built of brick and stone and will be fireproof.

Frederick Mitchell, of Ridley Park, has donated a large tract of ground at that place of sufficient size to erect a rectory, chapel and school. In a short time work will be started on the erection of the chapel. It will be one story high, 30x90 feet, and be built of brick and stone. The Rev. Thomas F. Ryan, rector of St. Rose of Lima Church, Eddystone, has the matter in charge.

The parochial school of St. Mary of the Assumption, at Manayunk, is to be enlarged to accommodate the large increase of pupils. The houses next to the school have been bought, and the work of demolishing is in progress. The new building will be two or three stories high, and will match the present one in design, and be equipped with modern appointments. The Rev. Henry A. Gantert is the rector.

Milligan & Webber, architects, 520 Walnut street, have completed plans and specifications and invited estimates for a five-story addition and general remodeling of

The project has been in contemplation with Prof. Munyon, the owner, for some little time, and it is expected that the actual work of the proposed apartment house will start in the early Spring.

Churchman & Thomas, 532 Walnut street, have completed plans and specifications and invited estimates for a handsome new banking house for the Pelham Trust Company, Germantown avenue and Philhellena street.
